

1st Meeting of the Iberian Ecological Society
XIV AEET Meeting
Barcelona, Spain
4th - 7th February 2019
Ecology: an integrative science in the Anthropocene

Coinciding with the commemoration of the centenary of the birth of Professor Ramon Margalef, we are pleased to announce the first Iberian Ecological Society Meeting (Sociedad Ibérica de Ecología, SIBECOL). The conference is co-organized by the [Asociación Española de Ecología Terrestre \(AEET\)](#), the [Asociación Ibérica de Limnología \(AIL\)](#), the [Sociedad Española de Etología y Ecología Evolutiva \(SEEEE\)](#), the [Sociedade Portuguesa de Ecologia \(SPECO\)](#), as well as the group of Iberian Marine Ecologists. The conference will concur with the XIV AEET Meeting.

The conference will address the great transdisciplinary and integrative background of Ecology. The aim of the conference is to highlight crosscutting ecological concepts shared by the different branches of this discipline (limnology, marine ecology, terrestrial ecology, theoretical ecology), regardless of the study system. We seek to exchange ideas and approaches that are common to different specialties in Ecology, and to provide a platform to discuss how ecological sciences can help to deal with the huge environmental transformations induced by human societies.

A preliminary list of themes includes the following topics:

- The interplay between ecology and evolution
- Biogeography and macroecology
- Biodiversity and ecological networks
- Microbial ecology across scales
- Functional and structural responses to water and nutrient constrains
- Biotic interactions and ecosystem functioning
- Extreme events footprints across ecosystems
- The water-land interphase: from molecules to ecosystems
- Global change impacts on biogeochemistry and ecosystem productivity
- Biodiversity and ecosystem conservation
- How Ecology serves the Society: services and nature-based solutions
- Ramon Margalef legacy

Conference venue

The conference will be held at University of Barcelona, Biology Faculty, Ramon Margalef building (Diagonal 643, Barcelona) <http://www.ub.edu/biologia/queoferim/index/planol.html>

Scientific sessions

Participants are encouraged to send session proposals. We are looking for transdisciplinary and integrative scientific sessions. The sessions are encouraged to address aspects of the main proposed topics of the conference (see above). Yet, any other subject of broad ecological interest that embraces different branches in Ecology will be welcomed.

In the interest of broad participation, **each participant may only submit one session proposal**. Time allocated to each accepted session will vary between 1.5 and 2.5 hours depending on the number of registered abstracts. A session will consist of one keynote talk (optional) and shorter oral presentations. Keynote talks will be 25 min long with 5 additional min for questions and discussion. Short oral presentations will be 12 min long with 3 additional min for questions and discussions. Depending on the number of abstracts registered within each session, the organizers can decide whether to include a slot of flash presentations (3 min each).

The sessions will be open for any contributor interested in participating and oral contributions will be accepted up to fill the allotted time. All proposals will be reviewed by the Scientific Committee on the basis of the following criteria: scientific quality, potential interest by meeting attendees, a clearly written and compelling description, and potential keynote speaker and participants. Please note that meeting registration is not waived or reduced for anyone participating to a session, keynote speakers included, and that the meeting organization will be not able to provide any travel and subsistence allowances.

Participants interested in organizing scientific sessions are asked to submit his/her proposals before the **5th of May 2018** to <http://www.congresosociedadibericaecologia2019.net/>. Please include in the proposal the title of the session, name of the organizer/s, a short summary (100-200 words), and the name of a potential keynote speaker. See instructions and download template at <http://www.congresosociedadibericaecologia2019.net/>. Session organizers will be notified of decisions by early June.

Contributions

We look forward to receive contributions for oral and poster presentations after the scientific sessions have been selected. Call for contributions will be open by the **4th of June 2018**.

All participants are invited to submit the title and abstract of his/her contribution by **10th of July the latest**. If accepted, the abstract will be available at the web site of the conference. Each participant can only submit one contribution (either one poster or oral presentation) as first or presenting author.

The language for the written communications (title and abstract of contributions) will be English. English is also the recommended language for text in slides and posters. Participants can use English, Spanish or Portuguese in oral presentations and discussions at their own convenience.

Workshops

Workshops are intended to convey specific knowledge or skills, as well as an opportunity to become familiarized with the use of auxiliary technology tools for quantitative and qualitative research methods. They can involve extended discussion as well as hands-on training sessions. Workshops may be organized by one or several leaders/presenters. All workshops will be scheduled on Monday afternoon, 4th of February. Proposals should include title, brief description (250 words max., including the knowledge, skills, or tools that participants are expected to gain from the course), name and contact of organizers, as well as minimum and maximum number of suitable participants and specific prerequisites of participants.

The Organizing Committee will select workshops among the received proposals to fulfil the available slots, on the basis of the scientific quality and the potential interest by meeting attendees. Workshops are often particularly addressed to students, but they will be open to all meeting attendees, first-come first-served, meeting the stated prerequisites. Fees for attendance to workshops may be applied.

Interested workshop organizers are asked to submit proposals until **4th of June 2018** at <http://www.congresosociedadibericaecologia2019.net/>.

Registration and conferences fees

Everyone attending the meeting is requested to register on-line at the conference website at <http://www.congresosociedadibericaecologia2019.net/>

Abstract acceptance will be communicated by the end of September of 2018. Early registration will be available from **1st to 30th of October 2018**. Later on, all fees will be increased by 75 €.

Registration includes attendance to the scientific conference, ceremonies, plenary talks, scientific sessions, daily coffee breaks, lunch, program, and conference proceedings. Attendance to the conference dinner is optional and priced separately (42 €, to be confirmed). Fees for attendance to workshops may also be applied separately.

Fees

Registration type	Early reg.	Late reg.
Regular members*	325,00 €	400,00 €
Regular non-members	400,00 €	475,00 €
Student members*	200,00 €	275,00 €
Student non-members	250,00 €	325,00 €

*Members of SIBECOL, AEET, AIL, SPECO and/or SEEEE

New members of SIBECOL not previously affiliated to AEET, AIL, SPECO and/or SEEEE will obtain a reduced price of 50€ (regular membership) or 25€ (students) including both 2018 and 2019 SIBECOL fees, if registered to the meeting, thus obtaining a regular member registration fee. After 2019, SIBECOL will apply normal fees (currently estimated as 60€ per year) for these members.

Important dates

- 5th May 2018: Call for Session and Workshop Proposals
- 4th June 2018: Open Abstract Submission
- 10th July 2018: Close Abstract Submission
- 30th September 2018: Abstract Acceptance
- 1st-30th October 2018: Early Bird Registration

Plenary Speakers

- Jordi Bascompte (U. Zurich)
- Carlos Duarte (King Abdullah University of Science and Technology)
- Veronica Ferreira (U. Coimbra)
- Oscar Godoy (IRNAS-CSIC)
- Sara Magalhaes (U. Lisboa)
- Clara Ruiz-González (ICM-CSIC)
- Montserrat Vilà (EBD-CSIC, Sevilla)
- Daniel von Schiller (UPV/EHU)

Organizing and Scientific Committees

Local committee

Francisco Lloret (CREAF-Universitat Autònoma de Barcelona)
Isabel Muñoz (Universitat de Barcelona)
Cèlia Marrasé (Institut de Ciències del Mar-CSIC)
Josep Piñol (CREAF-Universitat Autònoma de Barcelona)

Organizing committee

Susana Bernal (Centre d'Estudis Avançats de Blanes-CSIC)
Núria Bonada (Universitat de Barcelona)
Antonio Camacho (Universitat de València)
Emilio Casamayor (Centre d'Estudis Avançats de Blanes-CSIC)

Luis Cayuela (Universidad Rey Juan Carlos)
Marta Estrada (Institut de Ciències del Mar-CSIC)
Rafael Marcé (Institut Català de Recerca de l'Aigua ICRA)
Biel Obrador (Universitat de Barcelona)
Xavier Quintana (Universitat de Girona)
Sergi Sabater (Institut Català de Recerca de l'Aigua ICRA-Universitat de Girona)
Juan M. Soria (Universitat de València)
Xavier Turon (Centre d'Estudis Avançats de Blanes-CSIC)

Scientific committee

Laura Alonso-Sáez (AZTI)
Ricardo Anadón (Universidad de Oviedo)
Javier Aristegui (Universidad de Las Palmas de Gran Canaria)
Enric Ballesteros (Centre d'Estudis Avançats de Blanes-CSIC)
Pedro Beja (Universidade do Oporto)
Paulo Borges (Universidade dos Açores)
Cristina Branquinho (Universidade de Lisboa)
Antonio Camacho (Universitat de València)
Jordi Catalán (Centre Recerca Ecològica Aplicacions Forestals-CREAF)
Emma Cebrian (Universitat de Girona)
Fidel Echevarria (Universidad de Cádiz)
Arturo Elozegi (Universidad del País Vasco)
Adrián Escudero (Universidad Rey Juan Carlos)
Marta Estrada (Institut de Ciències del Mar-CSIC)
Helena Freitas (Universidade de Coimbra)
Josep Maria Gili (Institut de Ciències del Mar-CSIC)
Francisco Gómez Figueiras (Instituto de Investigaciones Marinas-CSIC)
Manuel Graça (Universidade de Coimbra)
Ruben Heleno (Universidade de Coimbra)
Pedro Jordano (Estación Biológica de Doñana-CSIC)
Francisco Lloret (Centre Recerca Ecològica Aplicacions Forestals CREAF, UAB)
Félix López Figueroa (Universidad de Málaga)
Cristina Máguas (Universidade de Lisboa)
Emilio Marañón (Universidad de Vigo)
Núria Marbà (Institut Mediterrani d'Estudis Avançats-CSIC, Universitat de les Illes Balears)
M^aAmelia Martins-Loução (Universidade de Lisboa)
Eugènia Martí (Centre d'Estudis Avançats de Blanes-CSIC)
Jordi Martínez-Vilalta (Centre Recerca Ecològica Aplicacions Forestals CREAF, UAB)
Enric Massuti (Centre Oceanogràfic de Balears IEO)
Clàudia Pascoal (Centre of Molecular and Environmental Biology-CBMA)
Francesc Peters (Institut de Ciències del Mar-CSIC)
Laura Prieto (Instituto de Ciencias Marinas de Andalucía-CSIC)
Jesús Pozo (Universidad del País Vasco)
Beatriz Reguera (Centro Oceanográfico de Vigo IEO)
Margarida Reis (Universidade de Lisboa)
Javier Romero (Universidad de Barcelona)
Santiago Sabaté (Centre Recerca Ecològica Aplicacions Forestals CREAF, UB)
Manuel Serra (Universitat de València)
Paula Sobral (Universidade Nova de Lisboa)
Anna Traveset (Institut Mediterrani d'Estudis Avançats-CSIC, Universitat de les Illes Balears)
Fernando Valladares (Museo Nacional de Ciencias Naturales-CSIC)
Dolors Vaqué (Institut de Ciències del Mar-CSIC)
Miguel Verdú (Centro de Investigaciones sobre Desertificación-CSIC)
Rosa M. Viejo (Universidad Rey Juan Carlos)
